Helicopter Crash Kit

DESCRIPTION

The Helicopter Crash Equipment Kit provides essential tools and safety gear for emergency response following a helicopter crash or emergency landing.

KEY FEATURES

- **Essential Tools and Safety Gear:** Provides necessary equipment for emergency response.
- **Safety Standards and Regulatory Compliance:** Ensures readiness for critical situations.
- **Improved Survival Chances:** Enhances safety and preparedness for those on board.
- **Aviation Regulations Compliance:** Meets CAP 437 and ICAO guidelines for offshore helicopter landing areas.
- **Sturdy Storage Cabinet:** Protects and organises all included equipment.
- **Lifeline Approved Safety Harness:** Ensures secure and reliable support during rescue operations.
- **Fireman's Gloves:** Provides protection for hands during firefighting and rescue activities.
- **Fire Blanket:** Aids in extinguishing fires or providing emergency warmth.
- **Fireman's Belt:** Offers additional safety and support for rescue personnel.
- **Fire Axe:** Essential for breaking through obstacles in rescue situations.
- **Mask with MMF Filters:** Provides respiratory protection in smoke-filled or hazardous environments.
- **Harness Knife:** Allows quick cutting of ropes or restraints.
- **Side Cutting Pliers:** Useful for cutting wires or small objects during rescue.
- **Bolt Cutter:** Enables cutting through metal locks or barriers.
- **Crow Bar:** Assists in prying open doors or windows.
- **Hacksaw:** Useful for cutting through metal or plastic materials.
- **Grab Hook:** Facilitates pulling or securing objects.
- **Ladder:** Provides access to elevated areas during rescue.
- **Signs & Poster Set:** Enhances communication and safety awareness.
- **Wrench:** Useful for various mechanical adjustments.
- **Screwdriver Set:** Essential for handling different screw types and sizes.
