SKU - 440020660

Seacrewsader 275N 3D Fire Retardant lifejacket

Elevate the safety standards for your offshore platform and vessel crew with this state-of-the-art lifejacket, meticulously crafted to shield against flames, sparks, and heat sources. Specifically engineered to meet SOLAS regulations, this dependable and comfortable solution is tailored to prioritise the well-being of your workers. A flame-retardant lifejacket, equipped with advanced features. Designed as the ideal safety partner for working in harsh maritime environment with flame hazards.

Key Features & Equipment Benefits:

- **Durable Fire Retardant Cover:** Enhanced safety with protection against flames and heat sources.
- **EXOLOK Gas Cylinder Security:** Prevents gas cylinder loosening, ensuring secure and reliable performance.
- **Foam Padded Cover:** Additional impact protection for increased safety in challenging environments.
- **Modular Cover System:** Customisable cover options to adapt to specific needs and preferences.
- **Fusion 3D Design:** Unhindered neck movement for optimal comfort and flexibility during work.
- **Unique Bladder Distribution:** Improved in-water performance, facilitating efficient rotation and maintaining a face-up position.
- **Array of Features:** Well-equipped with a buddy line and beacon status indicator for added safety measures.
- **2 x Inspection Zips:** Convenient access for inspection of the inflation mechanism and beacon status, ensuring readiness.
- **Approved by SOLAS:** A versatile lifejacket crafted for continuous wear and designed for use in both everyday situations and emergencies
