

Coded Vessel & Liferaft

SKU - 40021025

Floating Knife (165mm)

Designed for safety and practicality in marine environments, The Floating Safety Knife with Plastic Grip (165mm) features a rounded blade that prevents accidental cuts, making the buoyant stainless steel knife ideal for use on boats or during water-based activities.

KEY FEATURES

- **Buoyant Design:** Ensures the knife remains afloat and visible in water, preventing loss during emergencies.
- **Stainless Steel Blade:** Offers durability and sharpness, resistant to corrosion and suitable for cutting tasks.
- **Rounded Blade:** Reduces the risk of accidental cuts and injuries, enhancing safety during use.
- **Plastic Handle:** Provides a comfortable, non-slip grip, even when wet, for better control.
- **Compact Size (165mm):** Easy to store and handle, fitting well in maritime safety kits and on life rafts.
- **Versatile Use:** Ideal for marine safety, rescue operations, and general boating needs.
