ACR SR203 Primary HandHeld Radio

The SR203 VHF Handheld Survival Radio is an FCC approved device that's built for all marine applications. Its digital display and control buttons are backlit, making the device easily operable in dark environments. If you find yourself in need of some assistance, the SR203 VHF is easy to use. Once it's been activated, this survival radio automatically tunes to emergency Channel 16, and has a single push call button so you can quickly send out your distress message. The SR203 VHF has a battery life of over 16 hours, and meets all the requirements of the IMO.

SPECIFICATION

Product Number

2827 (Emergency Use Only Applications); 2828 (Everyday and/or Emergency Use Applications; 2829 (ATIS Applications)

Size

5.6(H) x 2.8(W) x 1.5(D)" (141(H) x 68(W) x 37(D) mm)

Weight

13.1 oz (0.37 kg) with primary battery; 12 oz (0.34 kg) with rechargeable battery

Waterproof

3.28 ft (1 m) for 30 minutes

Batteries

Primary - Lithium; Chemistry - Lithium/Iron Disulfide (LiFeS₂)

Battery Operation

16 hrs continuous operation with lithium battery (GMDSS Approved)

Up to 6 hrs with rechargeable battery (does not comply with GMDSS).

Warranty

1 year limited warranty

Output Power (High/Low)

2.5 Watts / 1 Watt

Receiver Sensitivity

-117 dBm Channels 21 (Weather Included)

Approvals

FCC (80.1101, CFR47) & MED (A.1/5.17) Approved. Meets or Exceeds IMO Regulation (A.694(17); MSC.149(77), VHF (IEC61097-12), EMC (IEC60945)
