

Firefighters Suits & PPE

SKU - 40020588

MED FireBuddy Trousers

The MED FireBuddy Trousers features a three-layer construction, with an outer shell made of aramid for superior durability. The second layer consists of meta-aramid felted thermal barrier, quilted to the third layer of aramid/viscose lining for exceptional heat resistance. The trousers are equipped with adjustable wide elastic braces and convenient quick-release buckles, ensuring a secure and comfortable fit. For added safety, optional fire-resistant retro-reflective tape can be easily attached to the wrists, hem, and ankles. Additionally, there is the option to include radio and thigh pockets, providing convenient storage solutions for firefighters.

KEY FEATURES

- **Enhanced Protection:** Fire-resistant construction provides reliable protection in high-risk environments.
- **Adjustable Elasticated Braces:** Wide braces with adjusters for a secure and customized fit.
- **Quick-Release Buckles:** Easy and swift removal for convenience and safety.
- **Optional Retro-reflective Tape:** Enhances visibility in low-light or smoky conditions.
- **Versatile Pocket Options:** Optional radio and thigh pockets for practical storage.
- **Reliable Durability:** Built to withstand the rigors of firefighting operations.
- **Comfortable Fit:** Adjustable features ensure comfort and freedom of movement.
- **Safety Standard Compliance:** Meets industry safety standards for certified protection.
