

Firefighters Suits & PPE

SKU - 40020590

MED FireBuddy Plus Trousers

The MED FireBuddy Plus Trousers feature wide elasticated braces with convenient adjusters and quick-release buckles, offering a comfortable and secure fit. These trousers provide the option to include fire-resistant retroreflective tape, which can be easily fitted to the wrists, hem, and ankles for enhanced visibility. Additionally, there is the choice to incorporate optional radio and thigh pockets, providing convenient storage solutions tailored to individual needs.

KEY FEATURES

- Four-layer construction: Aramid outer shell, waterproof breathable membrane, meta-aramid/para-aramid felted thermal barrier, and modacrylic/Lensing lining for exceptional protection.
- Wide elasticated braces with adjusters: Customizable fit for comfort and ease of movement.
- Quick-release buckles: Easy removal for quick gear changes or emergency response.
- Optional fire-resistant retro-reflective tape: Increased visibility in low-light or smoky conditions.
- Optional radio and thigh pockets: Secure storage for communication devices and tools.
- Enhanced durability: Built to withstand challenging fire-fighting environments.
- Comfortable and ergonomic fit: Unrestricted movement and flexibility.
- Safety compliance: Meets strict industry standards for reliable protection.
