

TRAINING MANIKINS

FIRE & RESCUE

SKU - Adult 50Kg—40020281

DESCRIPTION

The most versatile manikin for all rescue scenarios typically practised by emergency rescue professionals including: Confined Space, USAR, Chemical/Biological Hazard, Road Traffic Collision (RTC) & general handling exercises - ensuring effective, realistic training.

Now constructed in the same flame retardant Polyester used in Police ballistic/stab vests, which typically has 4 times the strength and abrasion resistance of 16oz canvas or P.V.C (the materials previously used) – making the manikins even stronger than before.

Features & benefits

- Anatomically correct weight distribution gives the 'feel' of an unconscious casualty.
- Strong webbing loop allows easy handling, hauling aloft, storage and suspension for drying.
- Tough enough to withstand being buried under concrete or steel lintels, driven over by a 4x4 vehicle, or dropped from a second floor window without damage.
- Water repellent material, making it suitable for wet or foul scenarios such as HAZMAT/CBRN.
- Soft body joints eliminate the risk of pinch welts and bruising; common injuries when using plastic bodied manikins.
- An immobilisation/extrication collar can be fitted around the neck of our adult manikins to promote proper casualty care.
- Using the shoutbox feature (optional extra) you can personalise a recorded message up to 60 seconds; e.g. "Help I can't feel my legs.." which can be periodically repeated.
- Comes complete with boots and overalls, which are easily replaced if damaged.

TRAINING MANIKINS

FIRE & RESCUE

SKU - Adult 50Kg—40020281

PRODUCT DETAILS

Available in a range of sizes and weights, from the 5kg Baby to the 90kg adult.

We also offer a shorter adult manikin often preferred by some of our customers in Asia - these are offered at 1.7 metres and 30Kg, 50Kg and 70Kgs.

Note: These manikins will withstand temperatures up to 100°C - above this temperature or where 'flash-over' may occur, we recommend using our Fire House training manikin. The Duty model also has normal weighting so should not be used in deep water, for deep water rescue scenarios use the Water Rescue dummy which is designed to float appropriately.

Available Sizes

Name	Height (m)	Weight (kg)	NATO Stock No
Baby	0.7	5	4240-99-8581987
Toddler	0.9	10	4240-99-0218800
Youth	1.3	20	4240-99-2130513
20Kg Adult	1.8	20	
30Kg Adult	1.8	30	4240-99-8525913
50Kg Adult (Best Seller)	1.8	50	4240-99-9771707
75Kg Adult	1.8	75	
70Kg Adult (Best Seller)	1.8	70	4240-99-2416796
