

Man Overboard & Recovery

SKU - 40021065

MarkusNet Fast Rescue Craft (FRC) Nets

DESCRIPTION

The Markus SCN series FRC scramble nets are essential MOB retrieval tools, suitable for SOLAS and commercial vessels. These nets ensure compliance with the SOLAS III/-17 standard, supporting the safe recovery of both conscious and unconscious individuals. Their robust design enables effective boarding or horizontal lifting of MOBs in alignment with SOLAS guidelines.

KEY FEATURES

- **Compliance:** Meets SOLAS III/-17 standards for MOB recovery (>12 persons, including FRCs).
- **Design:** Facilitates horizontal or boarding recovery of conscious/unconscious MOBs.
- **Materials:** Supplied with a durable orange-red PVC/polyester storage bag.
- **Attachment:** Features 7 buckles for secure fastening to rails or link pipes.
- **Performance:** Requires 1.5–2m water extension for effective use.
- **Configurations:** Available in various sizes for freeboard lengths of 1–2.5m.
- **Rungs:** Wide rungs (6, 8, 10, or 12) ensure stability during recovery.
- **Applications:** Ideal for SOLAS vessels, passenger ships, commercial vessels, and FRCs.
- **Storage:** Compact, easy-to-stow design for rapid deployment.
- **Recovery Position:** Ensures horizontal retrieval to minimise injury risk.

Man Overboard & Recovery

SKU - 40021065

MarkusNet Fast Rescue Craft (FRC) Nets

SPECIFICATION

Compliance

- SOLAS III/-17 standard for MOB retrieval.

Design & Applications

- Enables horizontal or boarding recovery of conscious/unconscious MOB's.
- Markus FRC nets adhere to the new SOLAS standard (III/-17) for the retrieval of persons in the water.

Material & Construction

- Durable PVC/polyester fabric with abrasion resistance and UV stabilisation.
- Marine-grade stainless steel or corrosion-resistant alloy buckles.
- Wide rungs (6, 8, 10, or 12) ensure stability and usability.

Dimensions & Compatibility

- Available in various sizes for freeboard lengths of 1m to 2.5m.
- Requires a water extension of 1.5–2m for optimal performance.

Fixing & Storage

- Features 7 fastening buckles for secure rail or link pipe attachment.
- Compact storage in orange-red PVC/polyester fabric bags for rapid deployment.

TECHNICAL INFORMATION

- Orange Red PVC / Polyester fabric storage bag
- Easy fastening with 7 buckles to rail or with available link pipe
- Must extend into the water by 1.5-2m
- Adheres to newest SOLAS Standard
- 6-12 rungs wide
- Net sizes of 250-400cm long

Suitable for FRC's and rigid inflatable boats with a fastening point less than 250cm from the water.
