Cherry Picker Restraint Kit

The Cherry Picker Restraint Kit is a ready-to-use fall restraint system designed for safe working at height in MEWPs, boom lifts, and elevated work platforms. This work restraint kit prevents workers from reaching hazardous fall zones, ensuring you are within compliance with safety regulations.

KEY FEATURES

- **Ready-To-Use System:** Provides immediate safety for working at height.
- **Fall Restraint Design:** Prevents access to fall hazards rather than arresting a fall.
- **Durable Kernmantle Rope Lanyard (1.5m):** High-strength construction for secure restraint.
- **Full Body Harness:** Ensures a comfortable and secure fit for extended use.
- **Two Steel Screw Karabiners:** Reliable and easy-to-use connectors for secure attachment.
- **Jute Storage Bag:** Keeps equipment organised and portable for easy transport.
- **Ideal For MEWPs & Boom Lifts:** Designed for safe use in cherry pickers, scissor lifts, and aerial work platforms.

KIT CONTENTS:

- Full Body Safety Harness (FA 10 102 00) – Provides secure, comfortable fit for long-term use.
- Kernmantle Rope Lanyard (1.5m, FA 40 500 15) – High-strength, durable lanyard for safe restraint.
- Two Steel Screw Karabiners (FA 50 101 17) – Reliable connectors for secure attachment.
- storage Bag – Keeps all components organised and portable.
