SOLAS Lifejacket Light

Reliable and compliant with SOLAS LSA Code and MED 2014/90/EU standards, this high-performance lifejacket light features automatic water activation for immediate operation in marine emergencies. Powered by a lithium battery with a 5-year service life, it delivers over 8 hours of continuous operation—exceeding minimum SOLAS requirements for luminous intensity and duration.

Compact and lightweight, it's suitable for easy installation on lifejacket straps or webbing. Designed for maximum visibility, safety, and peace of mind at sea.

KEY FEATURES

- **Automatic Water Activation:** Triggers immediately upon contact with water, eliminating the risk of accidental manual activation and ensuring dependable emergency response.
- **SOLAS and MED Compliant:** Meets SOLAS LSA Code and MED 2014/90/EU standards, ensuring full compliance with maritime safety regulations.
- **Extended Illumination:** Provides over 8 hours of continuous operation, exceeding SOLAS minimum requirements for brightness and duration.
- **Durable and Compact Design:** Measures 45 mm (L) x 31 mm (W) x 18.9 mm (H) and weighs just 23.5 g, including clip—small, lightweight, and built to withstand marine conditions.
- **Long-Life Lithium Battery:** Offers a reliable 5-year operational lifespan, ideal for long-term use and storage without the need for regular replacement.
- **Convenient Attachment Clip for Lifejackets:** Easily secures to lifejacket straps or webbing for quick, secure, and consistent fitting.
- **Approved by SOLAS, MED:** Fully certified to meet international maritime safety standards for global deployment

SOLAS Lifejacket Light

SPECIFICATION

- **Activation Method:** Automatically activates upon contact with water, reducing the risk of accidental manual activation.
- **Operational Duration:** Provides continuous illumination for over 8 hours, ensuring long-lasting visibility during emergencies.
- **Product Lifespan:** Designed for a durable 5-year operational life.
- **Dimensions:** Measures 45 mm in length, 31 mm in width, and 18.9 mm in height, offering a compact form factor.
- **Weight:** Weighs 23.5 grams, including the attached clip, for lightweight and easy integration.
- **Battery Type:** Equipped with lithium batteries for 8+ hours of continuous operation
- **Certifications:** Compliant with SOLAS (Safety of Life at Sea), MED (Marine Equipment Directive 2014/90/EU)
- **Design Features:** Compact design with a convenient clip for secure attachment to life-jacket straps or webbing.

TECHNICAL INFORMATION

- Activation Type: Automatic water activation
- Battery Type: Lithium
- Battery Life: 5 years
- Continuous Operation Time: Over 8 hours
- Luminous Intensity: Exceeds minimum requirements
- Dimensions: 45 mm (Length) x 31 mm (Width) x 18.9 mm (Height)
- Weight: 23.5 grams (including clip)
- Attachment: Clip for fitting on lifejacket straps or webbing
- Certifications: SOLAS, MED 2014/90/EU
