

Firefighters Suits & PPE

SKU - 400205856

MED FireBuddy Plus Jacket & Trousers

The FireBuddy Plus Suit Level 2 (2020), a two-piece garment with a durable four-layer construction. Its features include an aramid outer shell, a waterproof breathable membrane, a meta-aramid/para-aramid felted thermal barrier, and a modacrylic/Lensing lining. The jacket offers a stand-up collar, elasticated cuffs, and a zip closure with touch and close fastening. The trousers feature wide elasticated braces with adjusters and quick-release buckles. Customize with optional fire-resistant retro-reflective tape, radio pockets, and thigh pockets.

KEY FEATURES

- **Maximum protection:** The four-layer construction and aramid shell provide high-level fire resistance, ensuring safety in hazardous environments.
- **Comfortable wear:** The waterproof breathable membrane and modacrylic/Lensing lining offer breathability and comfort, even during prolonged use.
- **Enhanced insulation:** The meta-aramid/para-aramid felted thermal barrier provides excellent heat insulation, minimizing the risk of burns.
- **Secure fit:** The jacket's stand-up collar, elasticated cuffs, and zip closure with touch and close fastening ensure a snug and adjustable fit, reducing the risk of heat exposure.
- **Easy on/off:** The trousers' wide elasticated braces with adjusters and quick-release buckles allow for quick and effortless wearing and removal.
- **Improved visibility:** Optional fire-resistant retro-reflective tape enhances visibility, making the wearer more noticeable in low-light situations.
- **Convenient storage:** Optional radio and thigh pockets offer practical storage solutions for essential equipment, ensuring easy access when needed.
- **Approved to EN469:2020,** this suit gives you reliable protection in high-risk firefighting scenarios
