

Ruth Lee Training Manikins

SKU - 40020483

Mountain Rescue Manikin

Train for avalanche rescue with the Ruth Lee Mountain Rescue manikin. Made from flame-retardant Polyester and foam, it's lightweight, strong and easy to carry with its backpack. This unique manikin is the only one in the world integrated with RECCO® reflectors, making avalanche victims easily searchable by professional rescuers. RECCO® detectors are already used in over 800 ski resorts worldwide.

KEY FEATURES

- Easily transportable at 11kg, thanks to the included backpack.
- Foam filling gives body-like resistance when probing, adding to realism.
- Secure pockets protect electronic transceivers, if used.
- Life-like facial features and mouth cavity for obstruction checks.
- Water repellent and non-absorbent material, reducing drying time after use.
- Soft body joints eliminate pinch welts and bruising common with plastic manikins.
- Immobilisation/extrication collar can be fitted for proper casualty care.
- comes with boots, overalls, and backpack, all easily replaceable if damaged.
