

Ruth Lee Training Manikins

SKU - 40020486

Duty Range Manikin –F&R

The Fire and Rescue Duty Manikin is the perfect training tool for emergency rescue professionals, providing realistic simulations for a variety of rescue scenarios, including Confined Space, USAR, Chemical/Biological Hazard, Road Traffic Collision (RTC), and general handling exercises. The manikin is now made with flame-retardant Polyester material, which is four times stronger and more abrasion-resistant than the previously used 16oz canvas or PVC materials. This construction ensures maximum durability, making it an ideal training partner for fire and rescue duty professionals.

KEY FEATURES

- Highly realistic training experience for emergency rescue professionals
- Anatomically correct weight distribution mimics an unconscious casualty
- Tough construction can withstand extreme scenarios, including being buried, driven over, or dropped from height
- Water-repellent material suitable for wet or foul scenarios
- Soft body joints eliminate risk of pinch welts and bruising
- Immobilisation/extrication collar can be fitted for proper casualty care
- Equipped with a strong webbing loop for easy handling, hauling, storage, and suspension
- Optional extra shoutbox feature for personalized recorded message up to 60 seconds

Comes with easily replaceable boots and overalls for added convenience

Ruth Lee Training Manikins

SKU - 40020486

Duty Range Manikin –F&R

SPECIFICATION

- Anatomically correct weight distribution for realistic rescue training.
- Strong webbing loop for easy handling, storage, and drying.
- Tough construction withstands extreme training scenarios, from concrete burial to vehicle impact.
- Water-repellent material suitable for wet or foul scenarios, including HAZMAT/CBRN.
- Soft body joints prevent injuries from pinch welts and bruising.
- Equipped with immobilisation/extrication collar for proper casualty care.
- Optional shoutbox feature allows personalized 60-second recorded message.
- Comes with easily replaceable boots and overalls.
- Constructed from flame retardant material used in Police ballistic/stab vests for superior strength and abrasion resistance.
- High density polypropylene webbing rated up to 440Kg.

Not Suited For:

- Use in temperatures above 100°C or flashover scenarios
- Use in water

TECHNICAL INFORMATION

- The Fire and Rescue Duty Manikin is constructed from the same flame retardant material used in Police ballistic/stab vests, providing unparalleled strength and durability.
- This advanced material offers four times the strength and abrasion resistance of traditional 16oz canvas or P.V.C., and it conforms to OEKO-TEX® Standard 100, BS EN ISO 12947-2 & 14116: 2008 for your peace of mind.
- Additionally, the Fire and Rescue Duty Manikin features high-density polypropylene webbing, with a 25mm rating of up to 207 Kg and a 50mm rating of up to 440Kg. This ensures that the manikin can be handled, hauled, and suspended with ease, while also providing exceptional strength and durability.
