

Lifebuoy Housings & Cabinets

SKU - 40020496

Sub-Surface Integrated Lifebuoy Set

Keep your 30" lifebuoy safe with the SOS400 Lockable Lifebuoy Cabinet with 2 x subsurface GRP 'Soft Ground' Poles. Made with UV resistant polyethylene, featuring breakable anti-tamper seals. Giving you fast and easy access in an emergency to the 30" / 75cm SOLAS & MED compliant orange lifebuoy complete with retro reflective tape and grablines

KEY FEATURES

- Designed to protect a 30-inch (762mm) lifebuoy and 30m floating line
- Manufactured with UV-resistant polyethylene for long-lasting protection in harsh environments
- Features two interlocking doors for fast emergency access
- Lifebuoy markings are moulded into the plastic for quick identification and durability
- Doors can be fitted with breakable anti-tamper seals for additional security
- Cabinet can be wall-mounted, rail-mounted (with optional brackets), or pole-mounted using a single galvanised post or two GRP posts
- Pole mounting allows for the fitting of an additional sign
- Cabinet is lockable to prevent unauthorised access
- Ideal for complying with safety regulations and requirements for life-saving equipment.
- A long glass reinforced plastic pole for mounting the 30" integrated lockable lifebuoy housing
- The sub-surface poles are used on soft ground and is secured below ground level

SKU - 40020496

Sub-Surface Integrated Lifebuoy Set

SPECIFICATION

Integrated Lockable Lifebuoy Cabinet:

- Designed to protect a 30-inch (762mm) lifebuoy and 30m floating line
- Manufactured with UV-resistant polyethylene for long-lasting protection in harsh environments
- Features two interlocking doors for fast emergency access
- Lifebuoy markings are moulded into the plastic for quick identification and durability
- Doors can be fitted with breakable anti-tamper seals for additional security
- Cabinet can be wall-mounted, rail-mounted (with optional brackets), or pole-mounted using a single galvanised post or two GRP posts
- Pole mounting allows for the fitting of an additional sign
- Cabinet is lockable to prevent unauthorised access
- Suitable for use in marine environments, such as docks, harbours, and marinas
- Ideal for complying with safety regulations and requirements for life-saving equipment.

30" Lifebuoy & Line

- 1 x Orange lifebuoy complete with reflective tape and grab-lines.
- 1x Encapsulated throwing line (30m line with the 30" Lifebuoy.)
- Corrosion & water resistant.
- Has grab lines and class 1 retro reflective bands for easy visibility.
- Complies with RNLI guide.
- PU foam-filled for durability.
- Manufactured using UV resistant polyethylene
- Polyethylene is a lightweight yet sturdy material, This material is also resistant to impact, corrosion, and chemicals, which makes it ideal for marine environments.

Sub-Surface 'Long' GRP Poles:

- 2 X GRP Sub-surface poles for mounting into soft ground
- A long glass reinforced plastic pole for mounting the 24" & 30" housings.
- The sub-surface pole is for use on soft ground and is secured below ground level pole.
- *If fitting to an integrated housing two **2** GRP poles are needed
