Retro-Reflective Marine Tape

Retro Reflective Tape is intended for use in reflecting SOLAS (Safety of Life at Sea) life-saving equipment, including life jackets, life rafts, and life-boats. The tape is designed for the marine/offshore industry, with a long lifespan, high clarity, and anti-lamination properties. It consists of an encapsulated optical design with a high reflective value, making it visible from all angles, whether in dry or wet conditions.

KEY FEATURES

- Appears red/gold/silver coloured in daylight, and reflects as a bright white in low-light conditions
- High brightness when illuminated from a wide range of angles, and whether wet or dry
- Simple to apply - a self-adhesive tape, easily trimmed to size
- Durable, flexible, and adheres readily even on curved surface
- Three different colours
- Tape reflects a clear bright white light
- High reflectivity over a wide range of entrance angles
- Type 2 Solas-grade reflectivity (indoor/outdoor use)
- Other widths available on request!

Retro-Reflective Marine Tape

SPECIFICATION

- Encapsulated lens sheet with a high reflective value.
- Flexible and fully transparent plastic foil for added durability and protection.
- Specifically designed for the marine/offshore industry.
- Long lifespan and high clarity.
- Suitable for use on SOLAS life-saving equipment such as life jackets, life rafts, and lifeboats.

TECHNICAL INFORMATION

- Thickness: 0,1 mm USCG
- Approvals: USCG, DNV, Wheelmark, Russian Register, Korean Register
- Colours: Red / Gold / Silver
