

Flotation, Immersion Suits

SKU - 40020515

Coxswain Suit

The Coxswain Suit is a high-performance Smocktop and trouser combo designed for harsh marine environments. The Smocktop is waterproof and breathable, featuring Glideskin neck & cuff seals, adjustable cuff covers, bungee cord waist adjustment, and sleeve pockets. The trousers have adjustable braces with a quick-release buckle system, bungee cord chest adjustment, an elasticated back waist, a convenience zip, and Cordura® overlay at knee and seat. Lower leg zips with storm flaps and adjustable ankle covers make these trousers easy to wear with boots. Overall, this suit is perfect for those who demand comfort, durability, and functionality in their sailing gear.
