

MOB Cradles, Nets & Ladders

SKU - 40020519

Ladder Stand-Offs

Fibrelight Ladder Detachable stand-offs, designed for enhanced safety and convenience during maritime emergencies. Each stand-off is available in both permanent and Velcro options, allowing users to easily grip each rung and maintain a secure footing. With a 7-10cm gap created between the ladder and the side of the vessel, our stand-offs provide a stable and sturdy support system for users. They also facilitate an efficient escape route in the event of an emergency, helping you to evacuate your vessel with ease.

KEY FEATURES

- Designed for enhanced safety and convenience during maritime emergencies
- Available in both permanent and Velcro options for easy gripping of each rung
- Creates a 7-10cm gap between the ladder and the side of the vessel for stability and support
- Provides an efficient escape route during emergencies
- Facilitates easy and efficient evacuation of the vessel
- Made with high-quality materials for durability and long-lasting use
- Lightweight and easy to handle, even in challenging conditions
- Quick and easy to install, saving valuable time in emergency situations
- Can be used in a variety of marine environments, including offshore rigs and vessels
- Compliant with international safety standards and regulations, ensuring optimal safety for users.
