

SB RESCUE SLING

TRAINING PACKAGE

Description

For many the first time a Man Overboard product will be used is in a emergency situation, possibly in adverse conditions.

The SB Rescue Sling Training Package is designed to teach the operator how to safely and correctly use the SB Rescue Sling Man Overboard System so when the time arises the operator can feel comfortable with the equipment and the retrieval of the casualty, this also gives owners the reassurance that everything is being done to keep their employees safe..
