

Davits, Winches & Lifting

SKU - ZCDD2000

Zinc-Coated Deck Davit & Winch – 2000lbs

The Zinc-Coated Deck Davit with Winch is an excellent solution for those seeking a reliable and robust lifting tool. Constructed with high-quality zinc-coated steel, this deck davit provides superior strength and durability, with protection against harsh marine environments, such as on-board a vessel, workboat, or dock. With a lifting capacity of 2000lbs, this davit is ideal for a variety of heavy-duty lifting applications, such as lifting equipment onto boats — making it a popular choice for commercial, industrial, and marine use. The included winch features a user-friendly design, with an easy-to-use handle and brake system that ensures smooth and effortless lifting. The winch also includes a safety feature that prevents overloading, ensuring the safety of the operator and the load being lifted. The Zinc-Coated Deck Davit with Winch is easy to install, making it a versatile solution for your lifting needs. It can be mounted on any flat surface, providing the flexibility and convenience required for a range of lifting tasks.

KEY FEATURES

- High-quality zinc-coated steel construction for superior strength and durability
- Ideal for heavy-duty lifting applications up to 2000lbs, making it perfect for commercial, industrial, and marine use
- User-friendly winch with an easy-to-use handle and brake system for smooth and effortless lifting
- Safety feature that prevents overloading for operator and load safety
- Versatile and easy to install, with the ability to mount on any flat surface
- Hardened gears for smooth and dependable operation
- Durable stainless steel construction for long-lasting use
- Includes 20 ft. of stainless steel cable for added convenience
- Sturdy 16in.L x 17in.W x 14in.H base for stability during lifting operations
- 11:1 gear ratio for efficient lifting capabilities
- Lift range from 48 1/2 – 93 3/5 inches for versatility
- Boom length adjustable from 26 4/5–80 1/5 inches for greater reach and flexibility
- Column diameter of 4 1/2 inches for added stability
- Height from base to pump support of 10 inches for ease of use
- Height from base to top of 41 1/2 inches for added lifting capabilities.
