JB85.360 Equipment Cabinet

The JB85.360 Equipment Cabinet is the ideal solution for storage in harsh environments. With Lloyds approved composites and UV resistant gelcoats, this cabinet guarantees long-lasting protection for your equipment. Its lightweight yet rigid design, coupled with an impressive IP rating of 56, ensures maximum durability. The cabinet features 316 stainless steel hinges and hose pin, customizable door hinging with a rotary handle, and an optional anti-tamper seal for added protection.

KEY FEATURES

- Lloyds approved composites with UV resistant gelcoats offer long-lasting protection for equipment stored inside
- Impressive IP rating of 56 guarantees maximum durability in even the harshest environments
- Lightweight yet rigid design ensures high level of rigidity for relatively low weight
- Effective EPDM seal around door aperture for added protection
- 316 stainless steel hinges for added security
- Fire hoses held securely in place with a 316 Stainless steel hose pin
- Customisable door hinging (left or right) with rotary graphite nylon handle for fast access even while wearing gloves
- Optional anti-tamper seal for added protection
- Lloyds and ABS approvals for added peace of mind
- Provides excellent protection for equipment stored inside
