## 160N 'Ferry' Lifejacket

The EVAL Inflatable Ferry 160N Lifejacket, designed to provide reliable emergency support on passenger ships during coastal navigation. While it also serves as spare equipment for leisure boats, it's essential to note that it's not a replacement for a personal lifejacket recommended by EVAL. This lightweight and easy-to-use lifejacket is conveniently stored in a compact, airtight plastic bag, making it easy to store under passenger seats or compartments. The bag also contains printed instructions for use. Our Ferry lifejacket is fully approved according to EN ISO 12402-4 and EN 12402-3, ensuring its high-quality and reliability in critical situations.

### KEY FEATURES

- EN ISO 12402-4 and EN ISO 12402-3 approved for high-quality and reliability
- Lightweight and compact design for convenient storage
- Easy-to-use inflatable design
- SOLAS approved retro-reflective tape for increased visibility
- EN ISO 12402-8 approved whistle and oral tube for emergency communication
- Lifting loop for easy retrieval from the water
- Can be equipped with all EVAL SOLAS approved lifejacket lights
- Suitable for coastal navigation on passenger ships
- Recommended as spare equipment for leisure boats
- Does not replace the personal lifejacket recommended by EVAL, which must be donned continuously.
- Mk5 Automatic and Manual Inflation Options
