SOLAS Mullion 'MAS III' Immersion Suit

The Mas III Mullion Neoprene Drysuit offers ultimate protection and comfort in extreme water conditions. Its high-quality neoprene material is durable and flexible, featuring waterproof and breathable properties, a front zipper, reinforced seams, adjustable neoprene seals, built-in socks, buoyancy, reflective panels, and a whistle. It meets ISO 15027-1 standards for cold water immersion.

KEY FEATURES

- Offers at least 6 hours of thermal protection against cold water shock and hypothermia upon immersion.
- Made of high-quality neoprene material that provides thermal insulation, flexibility, and durability
- Equipped with a waterproof and breathable membrane to keep the wearer dry and comfortable
- Designed with reinforced knee and elbow pads for added protection and durability
- Includes built-in buoyancy and reflective tape for increased visibility and safety in low-light conditions
- Comes with adjustable cuffs and an integrated hood to provide a secure and comfortable fit
- Neoprene material provides excellent thermal insulation, which ensures the wearer remains warm in cold water conditions, minimizing the risk of hypothermia.
- Waterproof and breathable membrane helps to keep the wearer dry and comfortable, preventing the ingress of water while allowing perspiration to escape, reducing the risk of overheating.
- Reinforced knee and elbow pads provide added protection and durability, ensuring that the immersion suit lasts longer and can withstand the harsh marine environment.
- Built-in buoyancy and reflective tape make the wearer more visible, which is especially important in emergency situations or low-light conditions, increasing the chances of rescue.
- Adjustable cuffs and integrated hood provide a secure and comfortable fit, minimizing water ingress and providing extra protection against the elements.
