## Galvanised Steel Recovery Winch Cable, Hook

The Galvanised Steel Recovery Wire Rope Winch Cable with Fitted Red Painted Swivel Hooks is made from galvanised steel 7x19 wire rope, which provides superior strength and durability, ensuring that it can handle even the toughest towing jobs. The 2 ton red hook is equipped with a self-closing catch and a swivel, which helps to prevent snagging on your towing line. Additionally, the hook has been professionally attached to the steel wire rope with a thimble, further increasing its strength and reliability. These winch cables are all made in-house by a team of skilled riggers, and meet the BS EN 13411 standard, ensuring that you can have complete confidence in the quality and performance of the lifting winch cable.

### KEY FEATURES
