

Inflation Pumps, Cylinders & Accessories

SKU - 40020555

12V Bravo Turbo Max Electric Inflatable Pump

The Bravo Turbo Max 12V Electric Pump is a top-quality inflatable pump for professional and recreational use. Portable and easy to use, it quickly inflates and deflates inflatables with its powerful motor and high-pressure output. Its durable and reliable design withstands extreme conditions. With a digital display and adapters, achieving precise inflation is easy.

KEY FEATURES

- High-quality electric pump suitable for both professional and recreational use.
- Powered by a 12V battery, making it portable and easy to use on the go.
- Powerful motor and high-pressure output for quick and efficient inflation and deflation.
- Durable and reliable design that can withstand frequent use and extreme conditions.
- Digital display for monitoring pressure, ensuring precise inflation.
- Comes with a range of adapters for inflating various types of inflatables.
- Saves time and effort with quick and efficient inflation and deflation.
- Portable and easy to use on the go with its 12V battery power.
- Versatile with a range of adapters, making it suitable for various types of inflatables.
- Durable and reliable, ensuring a long-lasting and high-quality performance.
- Precise pressure monitoring with its digital display, making it easy to achieve the desired level of inflation.
- Ideal for professional and recreational use, suitable for marine enthusiasts, outdoor adventurers, and professionals in need of a reliable inflatable pump.
 - Pressure can be regulated up to 3.6psi with automatic shut off, equipped with two powerful motors mounted on an aluminium plate to disperse heat.
 - Supplied in a carry home bag with 3 metre long 12v cables with crocodile clips and 3 metre long inflation tube, can inflate and deflate.

12V Bravo Turbo Max Electric Inflatable Pump

SPECIFICATION

- 12V battery power source (battery not included)
- Max pressure of 3.6 psi with automatic shut-off
- Two powerful motors mounted on aluminium plate for heat dispersion
- Digital display for precise pressure monitoring
- Includes 6 adapters for various types of inflatables
- Flow rate of 450 litres per minute
- Portable and durable design for frequent use
- Weighs 3.6 kg (7.9 lbs) and measures 24 x 23 x 16 cm (9.4 x 9 x 6.3 inches)
- 12V cables with crocodile clips and 1.7 meter (5.5 feet) hose length
- ABS plastic material with 1000L/min capacity.

TECHNICAL INFORMATION

- Power source: 12V DC Battery (not included)
- Max pressure: 250 mbar (3.6 psi)
- Flow rate: 450 litres per minute
- Weight: 3.6 kg (7.9 lbs)
- Dimensions: 24 x 23 x 16 cm (9.4 x 9 x 6.3 inches)
- Voltage: 12 volts DC
- Hose length: 1.7 meters (5.5 feet)
- Cable length: 3 meters (9.8 feet)
- Adapters included: 6
- Material: ABS plastic
- Air Flow Capacity: 1000L/min
- current Consumption: 45-60A max
