

Davits, Winches & Lifting

SKU - 40020390

110V Marine Grade Davit Winch

110V Marine Grade Davit Winch - the ideal solution for lifting and moving heavy objects on your boat! Designed with convenience in mind, this Marine-Grade Davit Winch is powered by a 110V motor, making it easy to use and operate! Made from high-quality materials, this winch is built to withstand even the toughest marine environments.

KEY FEATURES

- **Heavy-Duty Performance:** With a pulling capacity of 1,500 lbs (680 kg), offering heavy-duty performance that allows you to lift and move large, heavy objects on your boat or vessel.
- **110V Motor:** the davit winch comes with a powerful 110V motor that provides a fast line speed for quick and easy lifting and moving of heavy objects on your boat.
- **Low Amp Draw:** The winch is designed with a low amp draw, which means it uses less power and is more energy-efficient.
- **Automatic Load-Holding Brake:** The 'Self-Locking' automatic load-holding brake provides additional safety and security when lifting heavy objects, preventing the load from slipping or dropping.
- **Free Spooling:** The free spooling feature allows you to easily unwind the cable or rope from the winch drum, making it quick and easy to attach or detach objects.
- **Power In - Power Out:** The winch is equipped with a power in and power out function, which allows you to easily control the movement of the load in both directions.
- **Remote Control:** The included remote control allows for easy and precise control of the winch, making it convenient to operate from a distance.
- **Fast and Efficient:** The powerful motor and fast line speed make lifting and moving heavy objects quick and easy, saving you time and effort.
- **Energy-Efficient:** The low amp draw design saves you money on energy bills and makes the winch more environmentally friendly.
- **Safe and Secure:** The automatic load-holding brake provides additional safety and security, preventing the load from slipping or dropping.
- **Easy to Use:** The free spooling and power in-power out features, along with the included remote control, make the winch easy to use and operate.

Davits, Winches & Lifting

SKU - 40020390

110V Marine Grade Davit Winch

SPECIFICATION

- Rated Line Pull: 1500lbs / 680kg
- Motor: 0.8 Hp, AC source 110 V 60 Hz, 1 Phase
- Gear Ratio: 261.8:1
- Gear Train: 2-Stage planetary
- Brake: Self-Locking
- Drum: $\varnothing 2" \times 3.25"$ (50mmx82mm)
- Drum Flange: $\varnothing 3.78"$ (96mm)
- Rope Supplied: Steel Cable $\varnothing 3/16" \times 35'$ ($\varnothing 4.76\text{mm} \times 10.7\text{m}$)
- Hook: 3/16"
- Winch Dimension: 15.6"x4.1"x5.4" (397x105x138mm)
- Mounting Bolt Pattern: 1.89"x3 (48x76mm)
- Net Weight: 19.3lbs (8.8kgs)
- Power IN & Power OUT
- Free Spooling
- Power Cable: Length 8ft with 3-prong plug, 18AWGX3C
- Switch Cord: 10ft 2inch, 18AWG/5C
- Height from Base to Top (in.) 41 1/2

TECHNICAL INFORMATION

- Power Supply: 110V Motor
- Rated Line Pull / Maximum Load Capacity: 1,500 lbs (680 kg)
- Galvanized aircraft cable min. break force of 4000 lbs
- Net Weight: 19.3lbs (8.8kgs)
- Self-Locking Brake
- CE Approval
