## JB10LJ Lifejacket Cabinet

### DESCRIPTION

This cabinet is specifically designed to securely store 10 automatic lifejackets, making it a popular choice in the Offshore energy and marine industries. It has received approval from Lloyds, ensuring its compliance with safety standards.

The JB10LJ cabinet for automatic lifejacket storage are expertly crafted using Lloyds-approved composites, including durable UV-resistant gelcoats. Designed to withstand harsh environments, these cabinets provide long-lasting protection for your equipment. With an impressive IP rating of 56 and approvals from both Lloyds and ABS, you can trust the reliability of this lifejacket storage product.

The lifejacket storage cabinets offer exceptional rigidity at a lightweight, thanks to their carefully engineered design. The EPDM seal surrounding the door aperture ensures a secure seal, while the hinges are reinforced with top-quality 316 stainless steel nuts, bolts, and washers. Equipped with 2 GRP saddles, these cabinets are perfectly suited for storing 10 automatic lifejackets. If you prefer to store lifejackets in bags, we also offer a shelf option. The door can be customized with left or right hinging and features a nylon rod handle, allowing for easy access, even when wearing gloves.

Ensure the safety of your equipment with these reliable, Lloyds-approved cabinets for automatic lifejacket storage. Trust the durable design to safeguard your gear in any environment.
