SKU - 40020639

RustStop Anti-Corrosion Tape

DESCRIPTION

Rust Stop Petro Tape - Advanced Rust Prevention Solution for Tubing Systems and Structures. A specially designed weather-resistant bandage infused with a high-quality rust-resistant blend of oil and grease. Shielding sensitive material from rust. The oil and grease mixture halts oxidation, ensuring long-lasting protection, even when submerged under water.

KEY FEATURES

- **Versatile Application: Suitable for a wide range of steel structures, from pipes to pipelines.** Safeguarding diverse steel components effectively, offering protection tailored to your needs.
- **Safeguard diverse steel components effectively, offering protection tailored to your needs.** Ensuring your equipment remains untarnished by corrosive agents, enhancing its longevity.
- **Provides durable corrosion prevention, even in challenging conditions.** Enjoying sustained equipment reliability, reducing maintenance needs and downtime.
- **Maintains integrity underwater, underground, and during harsh weather.** Count on unwavering equipment protection, regardless of environmental conditions.
- **Effortlessly applies, requiring minimal processing time.** Streamlining maintenance procedures, optimizing your operational efficiency.
- **Solvent-free composition ensures eco-conscious usage.** Aligning with sustainable practices while safeguarding your assets from corrosion.
- **Boasts a substantial 1.2mm thickness for enhanced protection.**
- Bolstering your equipment's defence with a thick barrier, reducing vulnerability to corrosion.

SOLAS & Marine Tapes

SKU - 40020639

RustStop Anti-Corrosion Tape

SPECIFICATION

- **Effective Surface Preparation:** Clean and remove loose rust for optimal application results.
- **Ideal Surface Conditions:** Best applied on dry surfaces; can also be used on wet surfaces.
- **Suitable Applications:**
 - Hydraulic pipeline valves/flanges
 - Underground pipes/tanks
 - Steel pilings/marine structures
- **Benefits:**
 - **Excellent Chemical Resistance:** Withstands acids, alkalis, and salts effectively.
 - **User-Friendly Application:** Easy to apply, short working time.
 - **Extreme Low-Temperature Durability:** Remains intact at -270°C, without cracking or hardening.
 - **Environmentally Friendly:** Solvent-free composition.
 - **Versatile Application:** Cold and wet surface application possible.
 - **Solid Water Barrier:** Creates a robust barrier against water infiltration.
- **Available Sizes (Rolls):**
 - 50 mm Width, 10 mtr Length, 1.2 mm Thickness, Weight: 0.1 kg
 - 100 mm Width, 10 mtr Length, 1.2 mm Thickness, Weight: 0.2 kg
 - Other sizes available upon request.

TECHNICAL INFORMATION

- **Certification:** Green Passport
- **ISSA IMPA:**
 - 7555001 812471(50 mm x 10 mtr)
 - 7555002 812472(100 mm x 10 mtr)
- **HS Code:** 2715.00-3000

| Article Number | Description | Dimensions | Weight | Thickness | IMPA |
|----------------|-------------------------------|---------------|--------|-----------|--------|
| RSPT050 | Rust Stop Petro Tape (36 pcs) | 50 mm x 10 m | 0.7 kg | 1.2 mm | 812471 |
| RSPT100 | Rust Stop Petro Tape (18 pcs) | 100 mm x 10 m | 1.4 kg | 1.2 mm | 812472 |
