

LIFEBUOY EQUIPMENT

CONTRACTORS RANGE

DESCRIPTION

Our contractors range is designed with budget in mind. The contractors housing is universal and fits both 24" and 30" Lifebuoys, lifebuoys are held in place by way of a protruding plastic peg .

Also available separately or as part of a set is a housing door which offers further weather protection as well as keeping the enclosed lifebuoy and line out of site. Mounting options include a galvanised subsurface pole for fixing below ground level, a hard surface base plate pole for fixing to a hard surface or rail clamps for fitting directly to railings.

SPECIFICATION
