SOLAS Flameguard MK3 Firefighters Set

DESCRIPTION

The Flameguard Mk 3 Firefighter Suit, crafted for harsh firefighting conditions, features a two-piece design with aluminised fire-resistant material meeting EN11612 standards. The jacket has a stand-up collar, elasticated cuffs, and a secure 50 mm touch and close fastening. The trousers include 25 mm webbing braces and nylon adjusters, with elasticated lower legs for mobility. Versatile and reliable, it caters to a wide range of wearers. **Note: Probuddy Helmet & Palmbuddy Gloves are Non-SOLAS Approved.**

KEY FEATURES

- Two-Piece Construction: Enhanced flexibility and freedom of movement for the wearer, providing a comfortable and practical firefighting solution.
- Aluminised Fire-Resistant Material (EN11612): Superior protection against high temperatures and flames, meeting stringent safety standards for reliable performance.
- Stand-Up Collar: Increased protection and coverage for the neck area, minimizing exposure to heat and potential hazards.
- Elasticated Cuffs: Secure and snug fit, preventing heat infiltration and ensuring continuous protection during firefighting operations.
- 50 mm Touch and Close Fastening: Easy and quick closure mechanism for both the front and collar, facilitating rapid deployment and removal of the suit.
- Trousers with Webbing Braces (25 mm) and Nylon Adjusters: Adjustable fit to accommodate a wide range of wearers, ensuring comfort and suitability for various body types.
- Elasticated Lower Leg: Improved mobility and ease of movement, allowing firefighters to navigate challenging environments with agility.
- Comprehensive Sizing Options: Wide range of sizing for convenient procurement, streamlining the ordering process for firefighting gear.
