## Jotron Battery Kit for Tron 60S/60GPS

### DESCRIPTION

Ensure uninterrupted safety with the Jotron EPIRB Battery Kit designed for the Tron 60S/60GPS. This spare battery pack ensures prolonged readiness, guaranteeing reliable distress signalling capability for your Jotron Emergency Beacon.

### KEY FEATURES

- **Extended Readiness:** Ensure prolonged operational readiness of your Jotron Emergency Beacon with a spare battery pack, offering peace of mind during maritime adventures.
- **Reliable Distress Signalling:** Guarantee uninterrupted distress signalling capability by having a spare battery pack readily available, ensuring timely response by rescue authorities in emergency situations.
- **Enhanced Safety:** Maintain optimal safety levels on watercraft with a spare battery pack, minimizing the risk of downtime due to depleted batteries and ensuring continuous beacon functionality when needed most.
- **Redundancy:** Increase redundancy in your safety equipment by having a spare battery pack on board, providing backup power in case of unexpected battery failures or depletion.
- **Efficient Maintenance:** Simplify maintenance procedures by having a spare battery pack readily available, facilitating quick and easy replacement when necessary and minimising downtime during battery replacement processes.
- **Cost-Effective Solution:** Save time and money by investing in a spare battery pack, avoiding potential delays and expenses associated with emergency battery replacements during critical situations at sea.
- **Versatile Compatibility:** Ensure compatibility with your Jotron Emergency Beacon by opting for the manufacturer-approved spare battery pack, guaranteeing seamless integration and optimal performance.
- **Long-Term Investment:** Maximise the lifespan of your Jotron Emergency Beacon by using a spare battery pack, prolonging the overall operational life of the device and maximizing its value over time.
- **Peace of Mind:** Enjoy peace of mind knowing that you have a backup power source readily available for your Jotron Emergency Beacon, enhancing your confidence and preparedness during maritime journeys.

## Jotron Battery Kit for Tron 60S/60GPS

### SPECIFICATION

#### Product Overview:

- The Jotron Tron 60GPS EPIRB Battery Kit is designed as a spare power source for the Tron 60GPS EPIRB, ensuring prolonged operational readiness and reliability during maritime emergencies.

#### Key Features:

- Specifically designed for use with the Tron 60s/GPS EPIRB.
- Provides a reliable power source for extended distress signalling capability.
- Easy to install and replace, facilitating quick battery swaps.
- Manufactured and approved by Jotron for compatibility and adherence to quality standards.

#### Package Contents:

- Spare battery pack for Tron 60GPS EPIRB

### TECHNICAL INFORMATION

- Part Number: 86225
- 7-year battery life
- Use with the Tron 60S/60GPS Emergency Position Indicating Radio Beacon (EPIRB).
