JB73 Lifejacket / Survival Suit Chest

DESCRIPTION

JB73 lifejacket storage chest offers secure storage for safety gear, ideal for marine operations. With ample capacity for lifejackets or immersion suits, it ensures reliable onboard equipment storage. Constructed with durable materials and UV-resistant coatings, it provides lasting protection against the elements. Featuring high-quality construction and secure locking mechanisms, including stainless steel hardware, it offers peace of mind for marine storage needs. Approved by leading maritime organizations such as Lloyds and ABS, it guarantees reliability and assurance.

KEY FEATURES

- **Storage Capacity:** Accommodates up to 24 lifejackets or 12 immersion suits, offering versatile storage options depending on requirements.
- **Durable Construction:** Manufactured using Lloyds approved composites with UV resistant gel-coats, ensuring long-lasting protection in harsh environments.
- **Superior Protection:** Excellent IP rating of 56 ensures equipment safety in challenging conditions.
- **Rigidity and Lightweight:** High level of rigidity with relatively low weight, providing durability without compromising portability.
- **Effective Seal:** EPDM seal around the lid aperture prevents moisture intrusion, safeguarding stored equipment.
- **Stainless Steel Hardware:** Hinges, catches, nuts, bolts, and washers made from 316 stainless steel for corrosion resistance and durability.
- **Optional Anti-Tamper Seals:** Lid catches can be fitted with anti-tamper seals for enhanced security.

JB73 Lifejacket / Survival Suit Chest

SPECIFICATION

Standard Specification:

- Dimensions (mm)
- Height x width x depth: 875 x 1480 x 1050
- Aperture: 840Dx 1382W
- Internal depth: 840
- Weight Kg: 39 Kg

Material Specification:

- Colour: Orange RAL2009
- Material: Lloyds approved composites with UV stabilised gelcoat
- Hinges: 316 Stainless Steel
- Lid Catch: 316 Stainless steel over centre catch
- Seal: EPDM

Optional Extras:

- Other RAL colours
- Class 1 fire retardant composites
- Heating and insulation
- Vents

TECHNICAL INFORMATION

- Dimensions: Height x width x depth: 875 x 1480 x 1050 mm; Aperture: 840D x 1382W mm; Internal depth: 840 mm.
- Weight: 39 kg for easy handling and transportation.
- Material: Lloyds approved composites with UV stabilized gelcoat for added durability.
- Colour: Orange RAL2009 for high visibility.
- Optional Extras: Other RAL colours, Class 1 fire retardant composites, heating and insulation, vents.
- Manufactured in the UK: Ensures quality and reliability.
