

Breathing Apparatus Cabinets

SKU - 40020868

JB83BA 1 x SCBA Cabinet

DESCRIPTION

JB83BA Self Contained Breathing Apparatus (SCBA) storage cabinet, designed for extreme environments onshore and offshore. Trusted by top energy companies for durability, it securely houses one 30-60 minute SCBA.

KEY FEATURES

- **Extreme Environment Suitability:** Designed for use in extreme environments both onshore and offshore, ensuring reliability in challenging conditions.
- **Trusted Durability:** Trusted by top energy companies for its durability, ensuring long-term usage without compromise.
- **Secure Storage:** Securely houses one 30-60 minute SCBA, providing peace of mind regarding equipment safety.
- **Superior Protection:** Crafted with Lloyds-approved composites and UV-resistant gelcoats, offering long-lasting protection for stored equipment.
- **Top-notch Quality Assurance:** Boasts an IP rating of 56 and approvals from Lloyds and ABS, ensuring high-quality performance.
- **Robust Yet Lightweight Design:** Features a rigid design with lightweight materials, combining durability with ease of handling and installation.
- **Effective Sealing:** Utilises an EPDM seal around the door aperture, enhancing protection against environmental elements.
- **Durable Hardware:** Equipped with 316 stainless steel hinges, ensuring lasting performance and reliability.
- **Flexible Door Configuration:** Door can be left or right-hinged, providing versatility to suit various installation requirements.
- **Quick-Access Handle:** Features a nylon rotary handle for fast access, even with gloves on, ensuring readiness in emergency situations.
- **Secure Equipment Retention:** SCBA is held securely in place by a plastic-coated sprung clip, preventing displacement during storage.

Breathing Apparatus Cabinets

SKU - 40020868

JB83BA 1 x SCBA Cabinet

SPECIFICATION

Standard Specification:

- Dimensions: mm (inches)
- Height x width x depth: 816 x 548 x 344
- Aperture: 662H x 395W
- Internal depth: 275 (10.83")
- Weight Kg: 11.5Kg
- Made in UK

Material Specification:

- Colour: Green RAL 6029
- Material: Lloyds approved composites with UV stabilised gelcoat
- Hinges: 316 Stainless steel
- Handle: Nylon / 316 Stainless steel with Biomaster® antimicrobial technology and anti-tamper seal facility
- Seal: EPDM

Optional Extras:

- Other RAL colours
- Class 1 fire retardant composites
- Perspex window
- Heater for cold climates

TECHNICAL INFORMATION

- Colour: Green RAL 6029
- Material: Lloyds approved composites with UV stabilised gelcoat
- Hinge: 316 Stainless steel
- Handle: Nylon/316 Stainless steel rotary with Biomaster® anti-microbial additive and anti-tamper seal facility
- Seal: EPDM
