

Breathing Apparatus Cabinets

SKU - 40020869

JB54BA Breathing Apparatus Cabinet

DESCRIPTION

JB54BA Breathing Apparatus Cabinet. Designed specifically for the Offshore energy and marine sectors. Built with Lloyds-approved composites and UV-resistant gelcoats, it offers long-lasting protection for equipment stored in challenging environments.

KEY FEATURES

- **Durable Construction:** Built with durable materials and UV-resistant coatings, ensuring long-lasting protection for stored equipment in challenging environments.
- **Certification by Leading Authorities:** Certified by leading authorities, ensuring reliability and adherence to industry standards, providing peace of mind regarding equipment safety.
- **Robust Design:** Features a robust design and secure hinges, offering dependable storage for various equipment types, minimizing the risk of damage or loss.
- **Customisable Door Configurations:** Allows for customizable door configurations, enhancing flexibility and accommodating various storage needs.
- **Ergonomic Handles:** Equipped with ergonomic handles, facilitating easy and convenient access to stored items, improving overall user experience.
- **Sector-Specific Design:** Specifically designed for the Offshore energy and marine sectors, ensuring suitability and effectiveness in meeting industry-specific storage requirements.
- **Long-lasting Protection:** Provides long-lasting protection for stored equipment, reducing the need for frequent replacements and maintenance, resulting in cost savings over time.

JB54BA Breathing Apparatus Cabinet

SPECIFICATION

Standard Specification:

- Dimensions: mm (inches)
- Height x width x depth: 857 x 1070 x 435 mm (33.74 x 42.13 x 17.13")
- Aperture: 692H x 868W mm (27.24 x 34.17")
- Weight : 19Kg (41.8Lb)
- Made in UK and Dubai

Material Specification:

- Colour: Green RAL 6029
- Material: Lloyds approved composites with UV stabilised gelcoat
- Hinges: Stainless Steel
- Handle: Recessed nylon rod
- Seal: EPDM

Optional Extras:

- Other RAL colours
- Class 1 fire retardant composites
- Perspex window with bezel
- Heating and insulation
- Manufactured in the UK and Dubai

TECHNICAL INFORMATION

- Colour: Green RAL 6029
- Material: Lloyds approved composites with UV stabilised gelcoat
- Hinge: 316 Stainless steel
- Handle: Nylon/316 Stainless steel rotary with Biomaster® anti-microbial additive and anti-tamper seal facility
- Seal: EPDM
