Fibreight Rod Stretcher

DESCRIPTION

The Fibreight Pole Stretcher is an ultralight rescue stretcher solution designed for rapid deployment in emergency situations. This buoyant stretcher provides essential in-water spinal immobilisation and can be swiftly set up with minimal effort.

Its user-friendly design ensures that it requires little to no training, making it an ideal choice for emergency responders. Perfect for search and rescue teams, the Fibreight Pole Stretcher combines simplicity and efficiency, offering reliable support when it matters most.

KEY FEATURES

- **Lightweight:** Easy to carry and transport to the scene of an emergency.
- **Rigid Spinal Support:** Ensures maximum stability and safety for the casualty.
- **Fully Adjustable for Height:** Accommodates a wide range of body sizes.
- **Removable Padded Head and Neck Support:** Provides additional comfort and protection.
- **Capable of Vertical Rescue:** Suitable for lifting casualties in vertical scenarios.
- **Capable of Water Rescue:** Designed for efficient in-water spinal immobilisation.
- **3 Years Manufacturer's Warranty:** Ensures long-term reliability and peace of mind.
